

SAVINGS THAT GO DIRECTLY TO YOUR BOTTOM LINE

A BLENDER FOR EVERY NEED

X SERIES
ACCURACY $\pm 0.5\%$

V SERIES
ACCURACY $\pm 0.7\%$

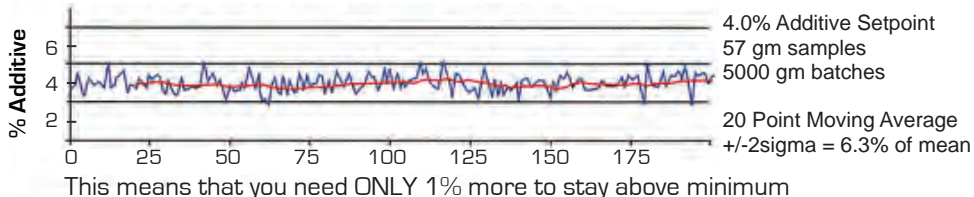

Z SERIES
ACCURACY $\pm 0.7\%$

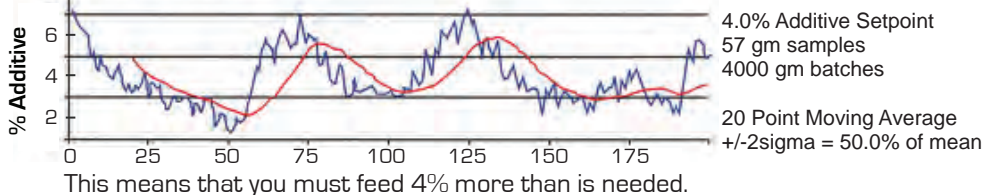

PLEASE ASK ABOUT OUR SPECIAL BLENDER FEATURES

PCC purchased a batch blender from a leading manufacturer and tested it against our own Guardian® batch blender. Two hundred material samples were collected, separated and weighed. Results are as follows:

PROCESS CONTROL CORP. BATCH BLENDER

TYPICAL BATCH BLENDER

GUARDIAN® SERIES

ACCURACY $\pm 1\%$

To discuss your own savings plan & to view a demo in our showroom or with consignment machines, please contact Mark Venable. mvenable@process-control.com (770) 449-8810 EXT226

With a 600pph production rate, payback based on conservation of expensive additives would pay for a new PCC blender in only a few months. Savings when upgrading to the more accurate V, Z or X Series would be even greater.
