MAY 2017

Interwire Show 2017

Process Control Corporation is exhibiting in the Interwire Show at the Georgia World Congress Center. This is the year's largest wire and cable show where 400 companies are represented. Led by our National Sales Manager Jim Collins, along with Sales reps Tim McElhany, Andy Venable, Troy and Dakota Shafer and Tom Piekunka. Tremendous interest has been shown in the 1kg batch blender developed by Process Control. The 1kg is rated up to 400lbs/hour throughput and is ideal for the Wire and Cable industry. The Interwire Show runs through Thursday, May 11. We look forward to you stopping by booth 143 if you haven't already!

Established in 1967, Process Control Corporation has an unending commitment to the design and engineering of advanced auxiliary machinery for the plastics processing industry. Our goal is to provide the most accurate equipment and exceptional customer service. We revolutionized processing with development of Automatic Scrap Recycling for in-line processing of film scrap and the first continuous gravimetric blending system. Process Control continues to lead the industry with advanced design and innovative solutions for the global marketplace. Please visit our website at www.process-control.com.
