**FOR IMMEDIATE RELEASE**

**FEBRUARY 2017**

## AMI POLYETHYLENE FILMS 2017

Join Process Control Corporation at AMI's 15<sup>th</sup> Annual Polyethylene Films conference January 31<sup>st</sup> – February 2<sup>nd</sup> 2017 at the [Shores Resort & Spa](#) in Daytona Beach Shores, Florida!

Come visit the industry which accounts for 22% of all the polymers used in North America. Polyethylene Films 2017 will offer a lively interaction between the finest expert panel of speakers and delegates and will provide a forum to debate the latest local and global trends within the industry. This conference will provide all attendees the opportunity to meet, share views, and discuss technical and business developments.

Process Control Corporations National Sales Manager Jim Collins (first from left) at the LPGA International Golf Course.

Established in 1967, Process Control Corporation has an unending commitment to the design and engineering of advanced auxiliary machinery for the plastics processing industry. Our goal is to provide the most accurate equipment and exceptional customer service. We revolutionized processing with development of Automatic Scrap Recycling for in-line processing of film scrap and the first continuous gravimetric blending system. Process Control continues to lead the industry with advanced design and innovative solutions for the global marketplace.
